REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: In claims 16 and 24, Applicant's arguments are directed towards the first cantilevered spring contact ... one of the proximal and distal ends of the pin" and that the spring contacts of Smith '559 mate with studs, not pins as discussed on pages 11-12 of the arguments filed 6/21/05. For claim 1, Applicant contends that the claim is drafted in accordance with 35 USC 112, sixth paragraph so that the means element is construed in accordance with the corresponding specification identified (page 13, line 32 to page 14, line 6 including rigid pin (such as 202) and cantilevered leaf spring (such as 206). With 35 USC 112, sixth paragraph invoked, Smith '559 fails to anticipate the claimed subject matter with its corresponding structure as indicated in the aforementioned arguments pages 12-13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
